## SCHOOL BUS UPDATE

*TOPEKA ONLY*

Dear Family,

On Saturday, April 26th, 2025, the Financial Services Oversight Committee approved *DOCKET#25409*, officially clearing the way to resume renovations on the school bus. After repeated delays and setbacks, we are pleased to announce that renovations will commence on Saturday, May 10th, 2025. Once funds are available, we expect the rate of progress to increase exponentially.

This will be a top priority project through the summer. You may notice loud, disruptive noises during this process and significant changes to the bus and backyard.

We do hope to have the school bus livable by the end of this year. Of course, this is subject to change based on excruciating circumstances beyond our control, but as of the time of this letter, we are confident in our ability to achieve the school bus project this year.

Thank you.
